

# ART AND DESIGN

Covering a vast range of skills and talents, art and design is a diverse subject that will help you turn your creative passion into a money-making career.

The **Design** of the part qualification is such that if taken sequentially with related N part courses i.e. N4+N5+N6, it enables learners to progressively obtain the National N Diploma once the required practical work component of either 18 months or two years, as required for the specific occupational area, is completed.

The part qualification as a single entity has value in the workplace as it equips learners with vital knowledge and skills that enable them to be productively employed at entry level positions in an occupation.

## Qualifying Learners are Capable Of:

1. Investigate a range of contemporary art, design and architecture theories and practices.
2. Integrate knowledge in the identification, development and presentation of an art, design or architecture solutions.
3. Identify and apply alternative design solutions to contribute to multi-disciplinary group work.
4. Present solutions of appropriate scope, scale and complexity within their own discipline.
5. Conduct research and compile a reflective research poster and essay on the identified design problem and solution under supervision.

## Course Module

### Year 1

DRW4101	: Drawing N4
PAT4101	: Painting N4
